

BE THE ARTIST

Wendy Red Star and Photo Mixed Media Art

Wendy Red Star works with photographs that she and her family have taken, as well as archival photographs that are kept in museums. She uses mixed media and has made videos, created installations, and done performances for her art. Wendy Red Star's art is made to start a conversation. With her art in mind, take old photographs and make them into art.

Supplies

- Old family photographs (if you cannot cut them, make a copy to use)
- Glue stick
- Scissors
- Crayons
- Pens or pencils in different colors
- Cardboard or heavy paper

Instructions

- Glue your photos (or copies of the photos) onto the cardboard or heavy paper with the glue stick.
- Write on the photos. You can write about anything; here are some ideas:
 - What the people are wearing
 - What you think the people are thinking
 - Who the people in the photograph are, and how they are connected
 - What the occasion is for the photograph
- You can also add color to the photographs.

Send a photo of your project to mycreation@skokieilibrary.info and we may feature it on social media.
