

Doodle Blobs

Do you ever struggle to think of something to draw or find yourself making the same sorts of things over and over? Get out of your creative comfort zone and jump start your imagination by turning abstract shapes into fun doodles.

Supplies

- ★ Markers or paint
- ★ Pen or pencil
- ★ Paper
- ★ Scissors (optional)

Instructions

- ★ Have a friend or family member create some blobs for you to work with using markers or paint. Or use some of the examples on the next page.
- ★ Use a pen or pencil to turn the blobs into doodles. You may connect shapes together into a larger image, or make each blob a separate drawing.
- ★ (Optional) Cut out and save your favorite doodles.

The goal of this activity is to experiment. Don't worry if some of your doodles don't turn out the way you wanted. Instead, expand on your favorites. Combine them into a collage, or use them as inspiration for a story or more detailed drawing.
