

## Research Skills

### Ideas for testing your skills, exploring new resources, and learning something new

- Come to the library and learn more about your family name(s) using Ancestry.com
- Read the front page of the *Chicago Tribune* for the day you were born
- Check your voter registration
- Read a book or article on a topic you know nothing about
- Watch a documentary from our DVD collection or on Kanopy
- Visit a local museum
- Tell a friend about something you've learned
- Find information about the best options for something you might want to buy
- Take a look at one of our digital local history collections or one of our high school yearbooks
- Read two articles or books with different viewpoints on the same topic
